SUPER CHARGED SEO CHEET SHEET

Tested And Approved.

You could spend thousands of dollars like I did, and months of training learning every technique. Or you could pay less money and just get the job done, and start building income end over end.

After spending months of time learning SEO, I eventually always find a person to farm it out to. The problem was always hit and miss, find the right person, to get the job done.

It's hard enough as it is to explain to non-SEOs how to rank a webpage. In an increasingly complicated field, to do well you've got to have a good handle on a wide variety of detailed subjects. That's why I built out this tested checklist of the major items you've got to cross off to rank in the new year — it's a quick reference of everything you need to rank.
